

Point and Pay Makes E-Payments Quick, Easy, and Secure for All.

Increase convenience for your customers by adding electronic payment channels.

MAKE IT EASIER for taxpayers and customers to pay on time, in full, from anywhere, 24/7. Revenues increase and collection time and costs are reduced when you accept credit card or e-check payments for taxes, licenses, and other fees by phone or via a secure website. Our case histories prove the results can be dramatic.

POINT AND PAY provides three avenues for collecting payments, each accepting all major credit/debit cards and electronic checks. For a nominal, one-time activation charge, you can begin accepting all major credit and debit cards on your website, by phone, or from your agency's office, with no hidden fees, ever.

3 WAYS TO PAY

- The Web Module provides payment access via the Internet.
- The Interactive Voice Response (IVR) Module enables payments by telephone.
- The Office Module enables additional payment options at the counter.

AN INTERNET CONNECTION and bank account are all you need. We give you an easy-to-use interface to query and post directly from your production business system and to generate real-time, live data reports. We handle all the merchant transaction fees. Both you and your phone and Internet users receive live, US-based support 24/7. We handle all charge-back requests. Citizens fund all this with a nominal convenience fee, which they independently authorize to add to their payment.

It's that easy.

Ask your Point and Pay Representative for complete details and pricing.

POINT AND PAY ADVANTAGES

- Quick, easy, secure
- Real-time reporting
- Personalized support
- Flexible software integration
- No hidden fees

Here's Why State and Local Officials Select Point and Pay.

Now credit card and electronic-check payments are easy, efficient, quick, and secure.

YOU HAVE NONE OF THE HASSLES AND ONE LUMP-SUM DEPOSIT

DAILY. With Point and Pay you can say goodbye to reconciling multiple credit card deposits made on different days. End exposure to card company fees and charges. Point and Pay maintains the merchant accounts, handles chargeback requests, and pays any incurred fees. Gone are the days of statement fees, batch header fees, monthly minimums and stand-beside credit card processing terminals.

THERE'S NO SOFTWARE OR HARDWARE TO PURCHASE, INSTALL,

MAINTAIN, OR UPDATE. No added burden on your IT staff. No data files to secure, back-up, or expose to loss. You will reduce office traffic, freeing time for customers who need extra assistance. Customers praise our excellent service, no matter which of the three channels they choose for access. They save time and find the payment process as simple and easy to use as an ATM.

POINT AND PAY IS SECURE AND RELIABLE.

All payment data are physically and digitally secured and routed through redundant data centers in Florida and Oregon.

IT'S ONE OF THE EASIEST DECISIONS YOU CAN MAKE TO IMMEDIATELY

increase and speed revenue collection, raise your department's productivity, reduce operations costs, and fulfill your charter to serve people. Your customers will be grateful to have new options to pay in full, on time, from anywhere, 24/7.

It's all about convenience.

CITY AND COUNTY OFFICIALS GIVE US VERY HIGH MARKS.

- "The Point and Pay solution reduces the volume of walk-in customers for our clerks, allowing better customer service in the branches."
-Clerk of Courts
- "While some vendors had smaller convenience fees, Point and Pay acts as a branch office for us, handling all customer service system-related needs."
-Chief Deputy Tax Collector
- "We receive our payments in a lump sum. Now, reconciliation between transactions and payments is a breeze."
-Utility Applications Manager
- "Point and Pay is very flexible to work with, allowing us to keep wait times down and make it very convenient for our customers to conduct business with us."
-Chief Deputy, Enforcement, Development, & Compliance
- "There are never any discrepancies between what we collected and what Point and Pay deposits in our accounts. It's accurate 100% of the time!"
-Director of IT Services
County Tax Collector
